The General Rule

It Is Essentially Taxable like the Income of Anybody Else of a National or an Embedded Resident if You Have a Universe of Effectively Connected Income You File a Return You'D Take Your Deductions and You Pay the Tax on the Difference in Order To Be Effectively Connected Here's a Case Where the English Word Actually Means What It Means There Really Does Need To Be a Connection and the the Statute and Principally the Regulations Give You Rules for Figuring Out whether Income Generated by a Trade or Business Is Properly Connected to that Trade or Business and It's Properly Taxable under these Rules and as I Said once You Have Effectively Connected Income of a Trade or Business You'Ve Got a Filing Requirement

The Panel's Mandate Is To Choose between the Two Sides in Other Words the Panel Does Not Have the the Power To either Develop Its Own Solution To Compromise or Even To Write an Opinion Its Solution Is Simply a Number without any Presidential Value this Goes a Long Way toward Making the Process More Streamlined and to Undermining or At Least Addressing the Principal Objection to Mandatory Arbitration They Knew that It Interferes Somehow with the Sovereignty of Countries and Put in Their Tax Systems so I'M a Big Fan of What We Have Done and as I Say As Far as I Know the Only Arbitrations That Have Taken Place So Far Have Been with Canada

And that Allows Us although We Don't Articulate It this Way To Interpret Beneficial Ownership in a Fairly Narrow Way as Meaning Something like Whose Income Is Really Are We Dealing with a Nominee Are We Dealing with an Agent or Are We Dealing with the Real Owner That's the Way We Look at It It's Not the Rea the Way the Rest of the World Is Looking at It They Don't Have Limitation on Benefits so They Are Moving in the Direction of Expanding Beneficial Ownership To Test Situations Where for Example Income Is Received and Then Immediately Passed On to the Owners of the the Entity That Receives the Income Derivative Benefits Clause
